

Stainless Steel Conveyor

Thermoplastic chain with stainless steel structure

Publication: D2013Aug

ECONOMIC OWNERSHIP

EASY INSTALLATION

REUSABLE

LOW MAINTENANCE

MODU System Stainless Steel Conveyor provides a structural stainless steel conveyor which uses our standard multi-flex plastic conveyor chain. The stainless steel conveyors are designed with similar concept as aluminium conveyors. MODU Conveyor's modular design comprehends trouble-free line configurations, site installation and maintenance making them cost effective and simple to use. Conveyors be reconfigured or assembled in quite a less time using simple hand held tools.

Applications

- 
- ✓ Application in packaged food handling.
 - ✓ Application in the pharmaceutical industry, where hygiene is extremely important.
 - ✓ Application in the cosmetics industry.
 - ✓ Application in industries where cleanliness, quick and easy cleaning is essential.

Benefits of Stainless Steel Conveyor

- ✓ Minimum dust accumulation thus easy to be cleaned.
- ✓ Low noise level and low power consumption.
- ✓ Ability to integrate with other application and device such as sensors and diverters.
- ✓ Flexible to install and match with site arrangement layout.
- ✓ Modular design for easy replacement of component parts, drives, idlers, wheel bends, wear parts, etc allows for flat packing to reduce shipping costs.
- ✓ Lightweight design.

Standard - conveyor size

The conveyor beam consists of two stainless steel profiles joined by connecting plates.

MODU DS2

Chain width: 63mm
Beam Width: 65mm

MODU DM3

Chain width: 83mm
Beam Width: 85mm

MODU DL2

Chain width: 140mm
Beam Width: 145mm

MODU DX2

Chain width: 220mm
Beam Width: 225mm

Stainless Steel Series Conveyor - at work

Packaged food processing line.

Meat processing line.

Cooking oil line with stainless steel chain

Meat processing line.

High speed can production line

Multiple conveyor lines in dairy production.
